“Humans are changing Planet Earth at a rapid pace. I am a scientist trying to understand and communicate the ecological consequences of global change.”

Education

Master in Data Science - Student

University of Innsbruck, Austria

FROM MATHEMATICAL FOUNDATIONS TO APPLICATIONS

2022 - present

- Completion in summer 2024

PhD

University of Innsbruck, Austria

DOCTOR OF PHILOSOPHY PROGRAMME BIOLOGY

2012 - 2018

- Department of Ecology
- Title: Effects of land-use change on the resilience of grassland carbon dynamics to extreme drought
- Supervisor Prof. Dr. Bahn, Co-Supervisor Prof. Dr. Gleixner
- Grade: 1.0

Msc Geocology

University of Bayreuth, Germany

FOCUS: ECOSYSTEM ANALYSIS

2009 - 2011

- Thesis: Assimilate partitioning in alpine *Kobresia pygmaea* grasslands on the Tibetan Plateau assessed by ^{13}C pulse labeling
- Supervisor Prof. Dr. Kuzyakov
- Grade 1.1

Bsc Geocology

University of Bayreuth, Germany

2005 - 2009

- Erasmus exchange semester: Umeå, Sweden
- Grade 1.1

Abitur

Neustadt a.d. Aisch, Germany

2004

- Focus: Math, Chemistry
- Grade 1.2

Skills

Data Analysis

- Analysis of extensive, multivariate, experimental datasets
- Data visualisation
- Statistical analysis: supervised learning, multivariate statistics

Software

- R (advanced)
- Julia, Python
- Git, Docker, R-Shiny, PostgreSQL, GIS
- MS Office, Latex

Experimental skills

- Planning, leading, and conducting multi-factorial climate manipulation experiments
- Field experiments in arctic and alpine environments
- Application of isotopes in environmental research
- Ecosystem flux measurements
- Isotope laser spectroscopy

Scientific Writing

Lead-author and Co-author of >15 scientific publications in international peer-reviewed journals

Project management

- Planning and managing large field campaigns
- Leading scientific data analysis and publications
- Acquisition of 3rd party funding

Languages

German (native), English (fluent), French (basics)

Experience

CAREER

Postdoctoral researcher

University of Innsbruck, Austria

WORKING GROUP *Functional Ecology* BY PROF. DR. MICHAEL BAHN

2018 - present

- Part-time (50%) during the employment in Freiburg
- Research focus: Thresholds and nonlinear responses of ecosystems to gradients drought intensity
- Development and implementation of a data processing pipeline and a PostgreSQL Database for data measured at the LTER field sites
- Teaching and co-supervising Bachelor, Master, and PhD Students

Postdoctoral researcher

University of Freiburg, Germany

WORKING GROUP *Ecosystem Physiology* BY PROF. DR. CHRISTIANE WERNER

2019 - 2021

- Part-time (50%)
- Research focus: Drought effects on carbon cycling in a tropical rainforest
- Planning and conducting experimental research campaign, focus on soil and stem carbon fluxes
- Data analysis, statistics, and visualisation

Research assistant

University of Vienna, Austria

CLIMGRASS EXPERIMENT - MULTI-FACTORIAL EXPERIMENT TO STUDY EFFECTS OF CHANGING CLIMATE ON GRASSLAND

2017

- A field on the combined effects of drought, temperature and elevated CO₂ on the carbon cycling
- Planning and conducting a measurement campaign, including isotopic pulse labeling and continuous measurement of soil isotopic carbon fluxes

Research assistant

University of Innsbruck, Austria

WORKING GROUP *Functional Ecology* BY PROF. DR. MICHAEL BAHN

2012 - 2017

- Research focus: Effects of land-use change and drought on carbon dynamics in a mountain grassland
- Management of a multiyear field experiment
- Development of a soil flux system to measure continuous isotopic fluxes *in situ* and a data processing pipeline
- Data analysis, statistics, visualisation, and publication of results in peer-reviewed journals
- co-supervision of undergraduate student

Voluntary service

Berchtesgaden National Park,

Germany

FREIWILLIGES ÖKOLOGISCHES JAHR

2004 - 2005

- Environmental education
- Assistance in various research projects

INTERNATIONAL EXPERIENCE

International Research Campaign

Agricultural University of Iceland,

Iceland

FORHOT Project: ECOLOGICAL EFFECTS OF LONGTERM WARMING IN THE ARCTIC

2018, 2022

I participated in two research campaigns aiming to understand the effects of long-term warming on the carbon cycle of arctic grasslands. During those campaign we conducted isotope pulse labeling campaigns in arctic grasslands and operated state-of-the-art continuous isotopic soil flux systems under highly challenging climatic conditions.

Visiting scientist

University of Arizona, USA

THE B2WALD EXPERIMENT: DROUGHT IN A TROPICAL RAINFOREST

2019

I participated in a large-scale, multinational experiment at the Biosphere-2 research facility. Aim of the experiment was to study the effects of drought on the water and carbon cycle of a enclosed tropical rainforest. During this experiment, I was in charge of two work packages measuring isotopic CO₂ fluxes and VOC fluxes with an isotopic carbon analyzer and a PTR-TOF spectrometer. The two month stay was hosted by Dr. Laura Meredith.

International Research Campaign

Tibet, China

TIP ATMOSPHERE-ECOLOGY-GLACIOLOGY CLUSTER

2010

Participant in an international research campaign to study the effects of land-use change on the carbon cycle of Tibetan grasslands, during which we conducted a isotopic pulse-labeling experiment.

Erasmus exchange student

University of Umeå, Sweden

ARCTIC AND ALPINE ECOLOGY, PALEOECOLOGY

2009

Extracurricular Activity

Teaching

University of Innsbruck

UNDERGRADUATE AND GRADUATE CLASSES

- Data management and analysis for environmental sciences (PhD level).
- Seminar: Presenting (Master level)
- Seminar: Functional ecology (Master level)
- Application of isotopes in ecological research (Master level)
- Ecological project study (Bachelor level, Master level)
- Exercise: Data management and statistics (Bachelor level)

Reviewing Activities

INTERNATIONAL SCIENTIFIC JOURNALS

Voluntary reviewer for various peer-reviewed journals, including Trends in Ecology and Evolution, Global Change Biology, Journal of Ecology, Functional Ecology, and others.

Grants, Scholarships, & Awards

GRANTS

- 2019 **Research Grant**, Tiroler Wissenschaftsförderung
- 2016 **Research Grant**, Forschungszentrum Berglandwirtschaft

SCHOLARSHIPS

- 2016 **Scholarship**, Doktoratsstipendium der Universität Innsbruck
- 2012 **Scholarship**, Doktoratsstipendium der Universität Innsbruck
- 2012 **Scholarship**, Short-term scientific mission, COST Action SIBAE
- 2007 **Scholarship**, Studienstiftung des deutschen Volkes

AWARDS

- 2019 **Anerkennungspreis der Jury, University of Innsbruck**, Best Paper Award
